

US-31 and M-104

Bridge Improvements

Grand Haven, Spring Lake and Ferrysburg, Ottawa County

March 2021 - June 2023

What Is Being Done?

The Michigan Department of Transportation (MDOT) will improve six bridges at the US-31/M-104 interchange in Grand Haven, Spring Lake and Ferrysburg, including the bridges over the Grand River and Spring Lake Channel.

How Will Traffic Be Affected?

Work will take place in the spring and fall to accommodate summer traffic (no lane closures are expected between mid-June and early September). One lane will remain open in each direction at all times on US-31 and M-104. US-31 connections to 3rd Street and M-104 will be closed during various stages and detoured to the Van Wagoner Street exit. Pedestrian pathways will be open Memorial Day through Labor Day. Check [Mi Drive](#) for up-to-date traffic information for motorists and pedestrians.

Safety Benefit:

Long-term benefits include improvements to vehicle safety and operations, as well as extending the service life of the roadway and bridges.
